

# AG CATCH BASIN

## WATER MANAGEMENT / OUTLET

### AG CATCH BASIN

Your subsurface water management system can only function as well as its outlet. So if the grade on your system won't allow for a gravity flow outlet, Prinsco's agricultural catch basin provides the perfect solution. They are built from polymer coated corrugated metal and provide strength and durability for years of trouble-free service. Coupled with Prinsco's ECOFLO® 100 and GOLDLINE® products, they provide a water management system that is engineered with integrity!

### Features

- Standard size is 13' tall x 48" diameter, providing increased storage volume.
- Galvanized, polymer coated steel tanks provide increased protection against abrasion & corrosion.
- Basin stub receives 18" Prinsco ECOFLO 100 or GOLDFLO. Connection is built for strength and easy to install with no couplers needed. Reducers to smaller diameters are also available.
- Backfill with native soils. No imported material needed, saving you time and money.

### Available Sizes

Description	Number
<a href="#">48" x 13' Catch Basin with 18" stub and bottom</a>	CBCMP481318
<a href="#">48" Dia 1' Vertical Extension</a>	CBCMPR48112
<a href="#">48" Dia 2' Vertical Extension</a>	CBCMPR48212
<a href="#">48" Dia 3' Vertical Extension</a>	CBCMPR48312
<a href="#">48" Galvanized Lid with Stand</a>	CBCMPL48
