STORMWATER SOLUTIONS / COLLECTION & CONVEYENCE / FITTINGS

INTEGRITY® TEE

Prinsco's Integrity Tees feature a breakthrough seamless design offering unsurpassed watertight and structural performance. These patent-pending fittings were designed specifically to allow for increased cover heights and greater strength for AASHTO H-25 vehicular loads while consistently providing watertight performance.

Performance

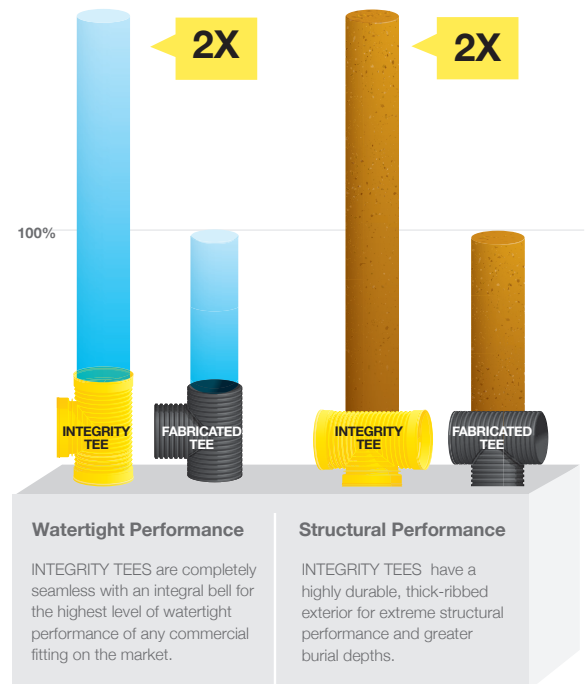

INTEGRITY® TEES meet the following:

- **ASTM F 2306:** Standard Specification for 12" - 60" (300 - 1500 mm) Annular Corrugated Profile-Wall Polyethylene (PE) Pipe and Fittings for Gravity-Flow Storm Water and Subsurface Drainage
- **AASHTO M 294:** Standard Specification for Corrugated Polyethylene Pipe, 300 - 1500 mm Diameter*
- **ASTM F477:** Standard Specification for Elastomeric Seals (Gaskets) for Joining Plastic Pipe
- **ASTM D 3212:** Standard Specification for Joints for Drain and Sewer Plastic Pipes Using Flexible Elastomeric Seals

* See our INTEGRITY® TEE Product Specification at www.prinsco.com/CivilResources for details.

Available Sizes

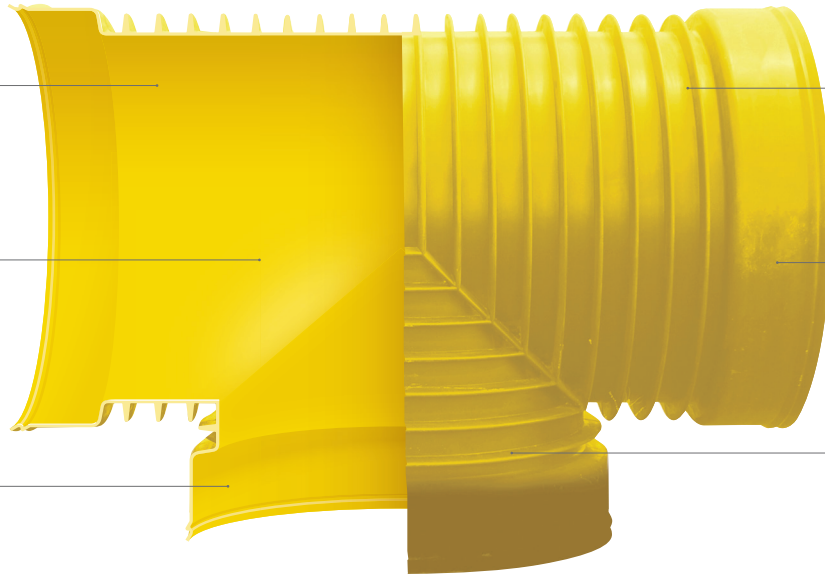

Diameter (in.)	Number
12"	ILTWT1212
15"	ILTWT1515
18"	ILTWT1818
24"	ILTWT2424
30"	ILTWT3030
36"	ILTWT3636
42"	ILTWT4242
48"	ILTWT4848
60"	ILTWT6060

Specially formulated material includes UV stabilizer

Smooth, seamless interior walls for maximum water flow

Lightweight and durable for long term service life, and easy handling and installation

Thick outer ribbing for added structural performance

Interconnectable modular design with heavy duty integral bells for easy installation

Seamless molded body construction with thick ribbing for added structural performance and greater allowable burial depths

Applications

- Underground Detention Systems
- Storm Sewers
- Highway/ Parking Lot Drainage
- Industrial Applications
- Ditch Enclosures
- Water Re-use Facilities

* Contact your Prinsco representative regarding application suitability questions.
